

The worry-free solution...

...for your waiting room.

Introducing The KIMBERLY-CLARK* Respiratory Hygiene Station

According to the CDC, influenza in the US accounts for an average of 36,000 deaths per year¹. To prevent the transmission of all respiratory infections in healthcare settings, including influenza, the CDC Respiratory Hygiene/Cough Etiquette Guidelines² recommend that patients take precautionary steps when experiencing signs and symptoms of a respiratory infection. The Guidelines state that “healthcare facilities should ensure the availability” of face masks, tissue and hand antiseptic in waiting areas for patients and visitors.

Infection Control for Patients and Families —while you wait!

The new KIMBERLY-CLARK* Respiratory Hygiene Station — a sturdy, convenient dispenser unit filled with Kimberly-Clark* Face Masks (including the new KIMBERLY-CLARK* Child’s Face Mask featuring Disney characters), KIMCARE* Instant Hand Sanitizer, and KLEENEX® Brand Facial Tissue. Now, following the Respiratory Hygiene recommendations in your waiting areas is one less worry.

At Kimberly-Clark, our mission is to deliver clinical solutions that you can depend on to meet the demands of your fast-paced world. When your needs involve preventing healthcare-associated infections (HAIs) for patients and healthcare workers, with Kimberly-Clark you'll always have one less worry.
